Appellant would urge the Examiner to make further changes in the language of Claim 14 by Examiner's amendment if she deems such changes necessary. Appellant will acquiesce in any such changes provided only that the scope of the Claim is not changed thereby,.

Appellant submits that Claim 14 as written obviates the rejection under 35 USC 112, 2nd paragraph and also that Claim 14 avoids any rejection under 35 USC 112 1st para.

Respectfully submitted
